For immediate release

We are very pleased to announce the launch of our SupplyPost.com Inventory Manager.

Here are just some of the regular features of the new web system.

- Each seller can securely manage his/her own listings from any internet connection. The interface is easy to use and very functional.
- Load up to eight photos and one video per listing. This offers the seller the ability to show several angles of each piece of inventory.
- Listing export feature. This feature allows the seller to easily compile a set of listings for reproduction into any print publication. The export can include photos and descriptions.
- Easy-to-make PDF flyers of any listing – including photos. With only three clicks, any user can send a PDF poster to a potential client. Viewers on-line can create these PDF's as well.
- Financiers can easily be added to your listings.
- Dealer page included. This dealer page is like an electronic business card. It will feature your company logo, contact information and links to your website and main company e-mail address.
- Domain name included with the pricing. We can direct a custom domain name to your dealer page. If you only need a basic presence on-line, you'll be able to advertise your own domain name, but avoid the costs affiliated with a full website.
- Turn your listings into a new website! Our team of designers and developers are ready to help you build your new website. Your listings can integrate with SupplyPost.com so that they are viewable on your own site and on SupplyPost.com simultaneously! We understand that most dealers need to keep a functional site that is easy to navigate, and we can design a site to suit your (and your customers') needs. Please log on to [www.postpublishers.com](http://www.postpublishers.com) for our portfolio.

Log on to [www.supplypost.com](http://www.supplypost.com) to see the future of heavy equipment and trucks online!

The new basic system pricing will go into effect with our October issue but if you are interested in keeping better track of your machines and inventory, please call your sales rep for a fully guided tour of the Supplypost.com Inventory Manager!! 1-800-663-4802
